

General Competition Information

All competitions will be run in accordance with the FISAC-IRSF Rule Book 2017-2018.

Each Freestyle music CD is to be handed to the sound system operator shortly before the corresponding freestyle. **Please be sure to test all Freestyle music CDs on the competition sound system before the competition.**

All scores displayed during the competitions are unofficial. Preliminary results will be handed to the delegation leaders after each competition. If no objections are registered within one hour, these results will become final.

Team Competition Description and Scoring Principles

For each event, every country may enter up to 5 teams in the World Championships and up to 4 teams in the Chinese International Open Tournament and the Junior World Championships in each age division and gender category (Male, Female and Open). Each team may have 4 to 5 members and in the case of the Open teams, both genders must participate in each event jumped. Teams that jump all of the following 6 events will also be ranked in the overall Team competition results.

- Single Rope Speed Relay:** 4 team members each skip 30 seconds of "Speed Step". The goal is to complete as many successful jumps in the time.
- Double Dutch Speed Relay:** 4 team members each skip 45 seconds of "Speed Step" in Double Dutch (2 long ropes being turned in opposite directions for the jumpers). The goal is to complete as many successful jumps in the time.
- Single Rope Pair Freestyle:** the goal is for 2 team members to complete a synchronized creative routine with as many correctly executed skills at the skippers' highest ability, using single ropes and within a 60 - 75 second time limit.
- Single Rope Team Freestyle:** the same goal as in Pair Freestyle, but with 4 team members.
- Double Dutch Single Freestyle:** the goal is for 3 team members to complete a creative routine in Double Dutch with as many correctly executed skills at the skippers' highest ability within a 60 - 75 second time limit.
- Double Dutch Pair Freestyle:** the same goal as in Single freestyle, but with 4 team members.

During the speed events, each skipper's jumps are counted by three judges and the results are averaged according to the rule book. Due to the immense speed of the skippers, only the right foot "Speed Step" jumps are counted. The number of counted Single Rope Jumps is multiplied by 3 and the number of Double Dutch jumps is multiplied by 2 to calculate the scores for the speed events.

The 4 freestyle events are each judged by a jury of 14 judges - the Single Rope events by one jury and the Double Dutch events by the second set of judges. In each case 5 judges rate the level of difficulty. Further 5 judges evaluate the presentation of the performance and count mistakes and 3 judges look for required elements and also count the mistakes. The Head Judge coordinates the jury, checks for time and space violations and also counts mistakes.

For each freestyle, half of the penalties (from mistakes, time and space violations) are deducted from the averaged difficulty score and the other half of the penalties are deducted from sum of the averaged presentation and required element scores. The reduced difficulty scores from all participants are ranked and the reduced presentation plus required element scores from all participants are also ranked. The sum of these two rankings determines the winning order in each individual event. The overall ranking per team is the sum of the individual rankings.

Individual / Masters Competition Description and Scoring Principles

For each event, every country may enter up to 5 skippers in the World Masters and up to 4 skippers in the Chinese International Open Tournament and the Junior World Masters in each age division and gender category (Male, Female). Skippers that jump all of the following 3 events will also be ranked in the overall competition results:

- 30 Seconds Speed - Sprint:** the goal is to complete as many successful "Speed Step" jumps in the time
- 3 Minutes Speed - Endurance:** the same goal as 30 Seconds Speed
- Freestyle:** the goal is to complete a creative routine with as many correctly executed skills at the skippers' highest ability within a 60 - 75 second time limit.

The scoring principles are similar to those in the Team Competition, whereby in individual competitions the Freestyle ranking is added twice to the ranking of speed and endurance events to calculate the overall ranking.

Triple Unders - Power: This Competition is for 15+ only and consists only of this one event. Each country may enter up to 2 skippers in each gender category (Male and Female). The goal is to complete as many consecutive "Triple Unders" (3 rope rotations per jump) without stopping. Each skipper normally has only one attempt. If less than 30 are jumped, a second attempt is permitted.

Teams and Competitors

The following pages display the lists of teams and individual competitors, each with their unique team / competitor number. The order of the teams / competitors in the various tables (from top to bottom) is the starting order in the corresponding competition.

Two sets of freestyle judges will be present for all team competitions. One set will judge the Single Rope Freestyles and the other set will judge the Double Dutch Freestyles. On the following pages the teams in each competition are listed in the starting order. Single Rope and Double Dutch freestyles will generally be jumped alternately. The order of the Team Freestyles is as shown by the number beside each Freestyle table.

Two sets of Judges will also be present for the individual / Masters competitions, one for Male and the other for Female competitors. The order of the Masters Freestyles is as shown by the number beside each Freestyle table. Due to the fact that we have more Female competitors than Male, the first few Freestyles will be jumped only by Female competitors and all be judged by the judge panel 1. Later the Female and Male Freestyles will be jumped alternately, with the Male competitors being judged by judge panel 2.

Unofficial Live Scores and Live Ranking on www.wejump.net

During the competitions, all scores will be available to view as soon as they have been entered in the scoring system. Please be aware that these scores are unofficial until they have been confirmed by the FISAC-IRSF competition committee, prior to the respective medal ceremony.

Due to the fact that not all teams and skippers compete in every event, it can occur that additional teams/skippers (not competing in all events) are ranked in between overall competitors in the individual event ranking.

We hope that the provision of the unofficial live ranking in the competition hall and also on www.wejump.net will enable everyone to follow the competitions more easily and make our sport more understandable for the spectators.

ShangHai University of Finance and Economics

Shanghai University of Finance and Economics (SUFE) began as a business program at the Nanjing Higher Normal School in 1917. Yang Xingfo, a well-known social activist and patriotic democrat, was appointed as program director. In 1921, as part of the plan to establish the National Southeast University based on Nanjing Higher Normal School, the business program was restructured and transferred to Shanghai, where it established Shanghai University of Commerce under National Southeast University. This university was the first commercial university in China's history of education. Guo Bingwen, a renowned educator, acted as president, and Ma Yinchu, a well-known economist, was the provost. In 1932, the university split and became known as the National Shanghai College of Commerce, the only national undergraduate business school in China at the time. In 1950, the university was renamed as the Shanghai College of Finance and Economics, and in 1985, it was renamed as Shanghai University of Finance and Economics. In 2000, the university became subordinate to the Ministry of Education and it is now jointly developed by the Ministry of Education, the Ministry of Finance and the Shanghai Municipal People's Government.

After generations of hard work and unremitting efforts, Shanghai University of Finance and Economics has become a multi-disciplinary key university that focuses on finance and economics and maintains coordinated development in economics, management, law, arts and science. The university covers an area of about 136 acres (826 mu) and consists of three campuses, with the main campus at No. 777 Guoding Road.

The university makes every effort to progress and cultivate tens of thousands of talents in financial management and related professions for the economic and social development of China. Shanghai University of Finance and Economics is striving to become an internationally renowned research university specializing in finance and economics.
